16th International Congress & Workshop of
**Egyptian Society of
Laparoscopic Surgery**

Welcome Message

The Egyptian Society of Laparoscopic Surgery is pleased to welcome you to it's Annual Congress, which is the usual combined gathering.

We Look forward to your valuable contribution and knowledge exchange with different schools,
As well as enjoying the warm weather of Egypt at this time of the year and its touristic attractions.

President
Prof. Faheem Bassiony

Hilton Helipolis, Cairo, Egypt

Board of ESLS

Flexible Video Choledochoscopes

The flexible video choledochoscopes from KARL STORZ allow exploration of both the intra- and extrahepatic bile ducts as well as the surgical removal of gallstones.

Special Features:

- "Chip-on-the-tip" technology for excellent image quality*
- Compatible with the IMAGE1 S™ platform and backward-compatible to IMAGE 1 HUB™ HD
- Menu navigation via camera head (e.g., Picture-in-Picture)
- Minimal sheath circumference – 2.8 and 5.3 mm
- Infinitely adjustable deflection up to 270°
- Direct transmission of hand movements through to the distal end

THE RELIABLE SHORTCUT

Controlled compression for a secure anastomosis¹

Ethicon Circular Stapler

Designed for better healing¹

- The Ethicon Circular Stapler (ILS) with its controlled tissue compression and Adjustable Height Staple Technology is designed to deliver optimal compression needed for a secure anastomosis and effective perfusion to promote healing¹

Less tension on tissue during closure and opening^{2,3}

- Continuously smooth anvil shaft creates less excess tissue draw during anvil closure compared to the Covidien DST Series EEA²
- Fixed anvil design causes less tension on the anastomosis with less strain on the staple line during opening compared to the Covidien DST Series EEA³

More device feedback when firing^{4,5}

- Breakaway washer provides 5x more tactile feedback⁴ and 16x more audible feedback⁵ compared to the Covidien DST Series EEA

Applicable specialties

- Bariatric
- Colorectal
- General
